

# TURN YOUR MATES INTO TEAM-MATES

Now's your chance to turn mates into a winning cricket team. LMS is fast, fun and a good reason to get everyone together.

Last Man Stands is the world's largest amateur cricket league, with over 50,000 players and 2,500 teams globally.

The format is 8 a side T20 matches, that can be completed in 2 hours on weeknights, and teams can enter without the need for affiliation with a club or the need for a home ground. People can simply register and turn up to play, with venue, umpire, scorer and ball all supplied. It's a great way of getting players engaged or re-engaged with cricket, as the games are short, sharp and enjoyable and everyone is encouraged to have a go.

Last Man Stands (LMS), with the help of the Dansk Cricket-Forbund are currently looking for host venues for this Summer. Host clubs have no need to supply volunteers, just to make the ground available once or twice a week when appropriate. Benefits to host clubs include:

- Revenue stream from pitch hire
- Potential for more members joining through LMS
- Potential revenue stream should clubs wish to open their bar or canteen
- More public visibility to cricket

If any club or ground would like to know more about Last Man Stands ([www.lastmanstands.com](http://www.lastmanstands.com)) or discuss being a host venue, please get in touch with Simon Melberzs at [simon@lastmanstands.com](mailto:simon@lastmanstands.com) or via phone at +447506841164.

- **8-a-side amateur Twenty20 league**
- **Each game is completed in about 2 hours, making it perfect to play on a weekday evening**
- **20 overs are played, but with five balls per over instead of six**
- **Sides can only be bowled out when all eight players are dismissed – so 'Last Man Stands'**
- **...and if that wasn't enough, you score 12 if you hit a six off the final ball of an innings!**
